DEMOCRATS HOLD DEBATE AT ROFF

Friday afternoon about fifteen enthusiastic democrats went from Ada to Roff to attend the meeting of the Young Men's Democratic club. The meeting was not very well attended by the democrats of Roff, however, but the program was rendered just the same. The question debated was, "Resolved that justices of the United States Supreme Court should be elected for a term of years instead of being appointed by the president." The affirmative was championed by J. W. Dean of Ada, and Wm. Felter of Roff; the negative by Byron Norrell of Ada, and E. S. Kerr of Roff. W. B. Jones, T. W. Robinson and D. W. Swaffar were appointed as judges, and after giving close attention to the remarks of the speakers, rendered a decision in favor of the affirmative, the vote standing two to one.

Some of the boys insisted on hearing the famous houn' dawg song, and efforts were made to have three or four of the musicians present to sing it. However, J. W. Davis was the only man who had the nerve to tackle the job, and his rendition of the noted classic won him a liberal round of applause.

Another debate will be pulled off at Ada on the evening of the 16th, the question being government ownership of telegraph lines, and the speakers divided between Ada and Roff as before.

WANTS TO KNOW ABOUT EDWARDS' SENTENCE

Oklahoma City, Ok., April 5.—A letter went from the governors office today to Warden Dick of the McAlester penitentiary asking for a report on the mental condition of Frank Edwards, sentenced to death for the murder of a man named Gray in Pontotoc county. The case was tried in Seminole county on a change of venue. Edwards' execution was fixed for last October. A reprieve was granted until Jan. 12 upon assertion of the man's attorney that the prisoner was crazy, and he was subjected to examination by alienists. They reported that it would require time to fully develop the mental status of the prisoner, causing a second reprieve until April 19, and an order confining the prisoner in the penitentiary.

The reprieve granted James Holmes a negro, under sentence of death for complicity in the murder of W. H. Archie in Oklahoma City a year ago last January, also expires April 19. The stay was given to allow the case to be taken to the federal court, which was done, and a decision was rendered by Federal Judge Cotten recently adverse to the negro's claims. Attorney Wagoner, who has handled Holmes' case, appeared before Gov. Cruce this morning in argument for a commutation of the sentence to life imprisonment.

Allen Elects New School Principal.

The school board held a meeting last Saturday and selected a new principal for Allen Public school. The new man is O. H. Graham of Muskogee. He taught two years at Konawa and is said to be a teacher of experience. The board has heretofore paid T. B. Liner \$125 per month but decided to reduce expenses this year, hence Mr. Liner was not an applicant. The new principal will receive \$100 per month. We are not advised as to what Mr. Liner will do, but he is too valuable an instructor to be long out of lucrative employment. He has given Allen one of the best schools in the state and we sincerely regret his retirement.—Allen Hustler.

ADA BOY GETS A GOOD POSITION

S. B. Johnson has secured a position as principal of the Orphans' school at Pryor Creek, Okla. Johnson, by having taken work in advance, finished the required work for graduation at the end of the winter term. Stye is an A1 student, and has held a prominent position in the student body. Every one wishes him success in his work.—New Education.

FIFTY YEARS AGO TODAY SINCE SHILOH

Pittsburg Landing, Tenn., April 6.—A reunion of the survivors of the great battle of Shiloh began on the battlefield here today, on the semi-centennial anniversary of the historic conflict. It is a reunion of the Blue and the Gray and from as far south as Texas and as far north as Wisconsin and Michigan the old warriors have journeyed hither to mingle together in peace and to exchange reminiscences and recall the events that made history in sight of old Shiloh church fifty years ago. The reunion is under the auspices of the Battle of Shiloh association.

The battle of Shiloh, the most sanguinary of the battles that marked the early period of the civil war, was fought fifty years ago, on April 6 and 7, 1862. Shortly after the capture of Fort Donelson, Gen. Grant moved his army to Pittsburg Landing, on the Tennessee river, about 20 miles from Corinth, Miss. The army, numbering about 40,000 men, was in six divisions. The division commanders were Generals Sherman, McClelland, W. H. L. Wallace, Hurlbut, Prentiss and Lew Wallace.

At about the same time that the federals moved to Pittsburg Landing the Confederates concentrated at Corinth, with Gen. Albert Sidney Johnston in chief command, and General Beauregard as second. The four Confederate corps commanders were Generals Bragg, Hardee, Paulk and Breckinridge. In numbers the army about equalled the federals.

On April 1, both armies were expecting reinforcements. Grant expected Buell with about 40,000 men, and Johnston expected Van Dorn with 30,000. Johnston, however, concluding to attack Grant before joined by Buell, started from Corinth on April 3, but, owing to heavy rains, he could not attack until early dawn of Sunday the 6th. By persistent and continuous fighting, Gen. Johnston succeeded in driving the federals back during the day from the vicinity of Shiloh church nearly to the river.

At the close of the day's fighting Nelson's division of Buell's command arrived in part on the battlefield and helped to repulse the last charge of the victorious Confederates. The days fighting was a triumph for the Confederates, though they lost the brave Gen. Johnston, who fell while leading a charge.

The battle of the 7th was begun at break of day by Buell on the left, who had come up during the night with some 20,000 men. Grant was further strengthened by the addition of Lew Wallace's division, which had been absent the previous day through a misunderstanding of orders. The battle of the 7th was quite as severe as that of the 6th, and it was not until noon that the federal successes warranted them any assurance of victory. Two hours later, Beauregard, now in command, ordered a retreat, and the Confederates moved back without interference to Corinth, as the federals were in no condition to make a pursuit.

The losses in the two days' fighting were: Confederates—killed, 1728; wounded, 8,012; prisoners, 959; total, 10,699. Federals—killed, 1,725; wounded, 7,882; prisoners, 3,956; total, 13,563.

NEWS FORECAST FOR NEXT WEEK

Washington, D. C., April 6.—Next week will be a very important period in national politics. Before the week is over more than half of the delegates to the republican national convention will have been chosen, while the list of democratic delegates will be brought up almost to the half-way mark.

Presidential preference primaries will be held in Illinois Tuesday. The state is claimed by both Taft and Roosevelt on the republican side and by Wilson, Clark and Harmon on the democratic side. The same primaries will decide the party selections for United States senators representatives in congress and state and county officers.

On Saturday the primaries of both

parties will be held in Pennsylvania. The Taft managers claim 54 of the 64 delegates for Taft, and predict also that the 12 delegates-at-large to be selected by the state convention will be instructed for the president. The Roosevelt managers believe that the Taft estimate is greatly exaggerated. Woodrow Wilson is expected to win the democratic vote. The Wilson managers go so far as to predict a solid delegation of seventy-six for the New Jersey governor.

The New York Democratic State convention will meet in New York city Thursday, but it is not at all certain that the proceedings will divulge the real preference of the leaders for the presidential nomination. New York naturally wants to cast her ninety votes for the winner. At the same time she would prefer what she considers a "safe" man, which, from the New York point of view, means someone other than Woodrow Wilson. Either Harmon or Clark probably would be more acceptable than the New Jersey governor. It is thought likely that under the circumstances New York will mask her emotions under instructions for her favorite son, Mayor Gaynor, and not let loose her strength until she can throw it where it will do New York the most good.

The lines will be sharply drawn between the Roosevelt and Taft forces in the state republican convention of Michigan, which will meet in Bay City on Thursday. All of the republican

can delegation in Congress are supporting Taft, while Governor Osborn and the strength of the state administration will be on the Roosevelt side.

The state conventions to select the delegates-at-large to the Chicago convention will be held Wednesday in Maine and Vermont. The republican district conventions in the same state also will be held during the week. Maine is split between Taft and Roosevelt, while Vermont is expected to go for Taft without much opposition.

Kentucky republicans will hold their state and district conventions to select delegates to the national convention. The state is claimed by both the Taft and Roosevelt managers.

The republican state convention of New York will assemble in Rochester Tuesday to adopt a platform and elect delegates-at-large and alternates-at-large to the national convention. The results of the recent primaries assure the selection of Taft delegates.

The so-called "regular" republican state convention of Louisiana will meet in Alexandria Monday and name Taft delegates to the Chicago convention. The Roosevelt followers will hold a state convention later to name a contesting delegation.

William J. Bryan, Governor Dix, Governor Woodrow Wilson and Champ Clark are announced as speakers for the national democratic club banquet to be given in New York city Saturday evening in celebration of the birthday of Thomas Jefferson.

Outside of the field of politics the events of the week will include the unveiling of a memorial to the Women of the Confederacy in Columbia, S. C.; the removal of the remains of Gen. Philip Kearney from Trinity church cemetery; a special meeting in New York of the Episcopal house of Bishops to fill vacancies; the annual session of the central conference of American rabbis in Baltimore; the consecration in Omaha of Rev. P. A. McGovern as Roman Catholic bishop of Cheyenne; the introduction of the Irish home rule bill in the British house of commons, the annual convention of the Southern Commercial congress in Nashville and the meeting of the National Drainage congress in New Orleans.

Professional baseball for 1912 will begin in earnest with the opening of the season by the National and American leagues. A number of the minor leagues also will start their seasons during the week, among them the American association, Southern league, Cotton States league and Texas league.

It is only natural that a powder which soothes and refreshes your skin will bring comfort and beauty.

No housewife would think of paying the same price for every baking powder on the market. There is just as much difference in talcum powders, but few people know it, and all powders sell at about the same price.

You owe it to yourself to be careful what you put on your face. It is just as important as what you eat. The talcum we sell is made from the purest and best materials. It costs us more than the other kind, but it doesn't cost you any more. If it pays us to sell this kind on a far smaller margin of profit, it stands to reason that it pays you to buy it.

Tomorrow will be Easter Sunday and the milliners are doing a lang office business today.

If the Roosevelt men keep up their program of bolting every convention they cannot control, no question about the terrible one having a full delegation in case he bolts the Chicago convention, and that his nomination will be both noisy and enthusiastic.

Pittsburg county is preparing to hold a big county fair this fall. What is the matter with Pontotoc? We certainly have the most varied resources of any county in Oklahoma, but they have never yet been properly exhibited and advertised. A fair would add thousands of dollars to real estate values of Pontotoc county because of the increasing demand for land that would follow a proper

showing of what this section is really capable of. The News believes it can be done, too.

It is said that a certain Johnston county candidate called upon a farmer out in the field plowing. The farmer asked the friend of the "common people" if he could plow and answer that he could he was requested to try a few rounds while the said farmer went to the house for a drink of water. Going to the house the scientific agriculturist took a nap and did not return for several hours. Way late in the evening he returned to the field where the candidate was wrestling with the plow handles and thanking him very much he announced that he was a Socialist and would not vote for no doggone democrat under the sun.—Wapanucka Press.

BIRTHDAY OF EVENING NEWS.
Today the Evening News observes its eighth birthday and we are certainly pleased that the liberal patronage of the public has made it such a lusty youngster. The paper was established when Ada had only a fraction of its present population, and was for several years a losing proposition, but those trying times have passed, and the paper is on as firm a foundation as any other business enterprise in the county. Of the smaller town dailies, the News has been published longer than any other in the state. We trust that as time goes on we may serve the public better than ever and improve the paper until it reaches a point with which we can be half way satisfied.

Appropriate Recreation.
An author whose work is imaginative, should, for his rest, do something logical, such as playing patience. An accountant, on the other hand, whose mind will run on figures, should not play patience. He should mold figures out of clay or paint or do something artistic.

On the modern household. The up-to-date housewife no longer finds the household duties a drudgery. She has electricity installed in her home. The house is heated, she cooks, bakes, operates her sewing machine, her washing machine and does her ironing—all by electricity. It saves health and strength and prolongs life. It is quick, reliable and convenient. The housewife who would like to learn how to lighten her labors should call at our office. We will be glad to explain more fully.

HASKELL OPENS HIS CAMPAIGN

Addresses Large Crowd of Citizens. Gives Review of Administration and Assails Owen's Record.

This afternoon Gov. C. N. Haskell formally launched his campaign for the U. S. Senate, a large crowd assembling in front of the city hall where a platform and seats had been provided. He was introduced by Robert Wimbish and for over two hours addressed the assemblage, receiving frequent applause and laughter when he made a telling blow. The principal part of the speech was devoted to a review of his administration as governor and the many difficulties that confronted him. The latter part of it was devoted to Senator Owen.

Owing to the fact that the address was not concluded until press time arrived, it is simply impossible for the News to give a more extended notice of it today, but in Monday's paper a detailed account of the speech will be published.

Phillips on Matrimony.
The late David Graham Phillips had, like many bachelors, a cynical view of matrimony. Mr. Phillips, at a reunion of Princeton's class of '87, at the Princeton club, said of marriage: "The Persians have a proverb that every young man should consider well before proposing. It runs: 'He that ventureth on matrimony is like unto one who thrusteth his hand into a sack containing many thousands of serpents and one eel. Yet, if the prophet so will it, he may draw forth the eel.'"

Blames the Romans.
A sartorial authority says that the custom of dressing for dinner began with the Romans. It was needless to say, a simpler procedure than at present. A loose robe of a fine material was donned for the evening meal, preferably at home, but in cases where guests came from a distance, at the home of the host, he kept a supply of dinner clothes on hand for the use of his guests who came unprovided.

GRAY HAIR MAKES YOU LOOK OLD

A Simple Remedy Brings Back the Natural Color—Dandruff Quickly Removed.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray, you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days itching and dryness of the scalp entirely disappear.

Don't neglect your hair. Start using Wyeth's Sage and Sulphur today, and you will be surprised at the quick results.

This preparation is offered to the public at fifty cents a bottle. Special Agents, Gwin & Mays Drug Co.

An Egg Curiosity.

This morning W. W. Manning of Center brought to the News about the strangest freak in the way of an egg that one has seen lately. It was a soft shell, somewhat smaller than an ordinary egg, and seemed to have both a yolk and white. To it was attached a stem about four inches in length, and to the other end of this was another small bulb of an egg, filled with the white. Altogether the freak was six inches in length.

PLANS AND CONTESTS

Several Thousand Dollars in Prizes to Be Awarded.

Thus far about forty counties are represented in the county contests inaugurated for the members of the A. & M. College Junior Agricultural Clubs, and several thousands of boys and girls have registered for the various contests. The time for filing applications for entry to these contests closes April 15, and early action is necessary on the part of all boys and girls who wish to enter one of them. Now is the time for the boys and girls of this county to get busy. Don't wait until tomorrow to make up your mind.

The contests open to you are as follows: 1. The County Grain Contest, including corn, kaffir, or milo maize, as may be designated by the County Advisory Committee. 2. The Sewing Contest. 3. The Miscellaneous Crop Contest, including cotton, broom corn or peanuts as may be designated by the Advisory Committee. 4. The Canning Contest. 5. The Hog Contest. 6. The Cooking Contest. 7. The Poultry Contest for boys and girls not over 13 years old. 8. Buttermaking Contest for boys and girls not over 13 years old. The first six of the above contests are for club members 14 to 18 years of age.

Each boy or girl will be permitted to enter but one of the County Club Contests, as it is believed that a restricted field of effort will result in better and more efficient work. In entering for the Grain Contest or the Miscellaneous Crop Contest, the applicant must register for the crop designated by the County Advisory Committee. For Pontotoc County the grain crop is corn. The miscellaneous crop is cotton.

As prizes in this County Contest the A. & M. College is offering a free trip to District Agricultural Schools' Short Courses, as well as free trips to the State Fair School at Oklahoma City. In addition, special cash prizes are offered in counties where cotton is the contest crop by the Oklahoma Seed Crushers' Association. Cash prizes are offered by the college in the Poultry and Buttermaking Contests. Besides these, there will be a number of statewide prizes for boys and girls in which cash and valuable articles of merchandise will be offered by private citizens and other agencies co-operating with the A. & M. College. These special prizes will approximate five thousand dollars in total value, and full particulars regarding these special prizes will be printed in The New Education, April 15. If you are a member of a Junior Agricultural Club and wish to enter one of these contests and secure special bulletin or other literature for your work, fill out the attached blank and mail at once to the A. & M. College at Stillwater, Oklahoma:

HASKELL ADDRESSES NORMAL STUDENTS

It had been expected that Gov. Haskell would arrive at 9 o'clock last evening and would address the normal students and friends at 10 this morning on the subject of education, but on account of missing connection at Okmulgee, he was delayed until the 11:35 train this morning. The train was met by a large number of citizens headed by the Roff band. He and Mrs. Haskell were then driven to the normal in an auto, where the ex-governor was introduced by President Briles and made a short talk to the students and others present. He at once won great applause by declaring himself as most vigorously opposed to the Aiken bill, saying that no school should be condemned and abolished without a trial as is proposed by Aiken. He championed secondary institutions of learning as being worth infinitely more to the youth of the state than just a big state university, where a few professional men are turned out at high cost. President Briles had referred to the work of the governor in behalf of the Ada normal gave him credit for being one of the main instruments in its creation, but he modestly gave the credit to the Pontotoc county delegation in the legislature.

It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason we urge you in buying to be careful to get the genuine—

THE FORD'S BLACK-DRAUGHT Liver Medicine

The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It does not imitate other medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined.

Origin of "Blackguard."

Blackguard is said to come from a nickname applied to a group of boys always on hand to black the boots of the horse guards who paraded at St. James park, London, although Webster gives its probable origin as coming from the scullions, smutted from handling kitchen utensils. It now means a person of low character, especially one who indulges in scurrilous or abusive language.

NEGRO MELODY

A big feature with Richard & Pringle's Georgia Minstrels, who come to the City Hall Opera House tonight, is the band and orchestra; the former under the direction of that wizard of the trombone, Fred Simpson, justly styled "The Black Pryor," and the latter under the leadership of Frank Anderson, who received his musical education in Munich.

There is something peculiarly haunting about Negro melody and voices. Who can sound the depths or fathom the strange sweet pathos of their voices? Or the weird, indefinable something in harmony they produce with their instruments? One moment it is like the moan of lost souls; the next of a lightness and gaiety that would set all the world dancing. For natural unpolished harmony they have never been approached by the white musician.

If you wish to hear the songs of the Southland, rendered as only the Negro can render them; if you wish to turn back history's pages and see the Negro as he sported midst cotton and the corn in ante bellum days, you formance given by this company.

JONES CHAPEL SCHOOL CLOSED FRIDAY

Yesterday the Jones Chapel school, three miles west of town, which has been ably taught for the past six months by Miss Laura Johnson, closed for the term with an exhibition given by the pupils.

The teacher welcomed the visitors who were present, and two or three songs were sung by the school, and about fifteen recitations given. One song was by little Miss Willie Blocker, aged five.

Five prizes were then distributed by the teacher. Two of these were awarded to Eric and Mary Rushing for perfect conduct during the term, two to Claud Norton and Maggie Bullock for making the greatest improvement in penmanship, and one to Charles Pennington for the best attendance. At the conclusion of the program, the pupils insisted that the teacher favor them with a recitation which she did.

SENATOR RENEWS CORN GROWING PRIZE

Senator Gore's offer of a free trip to Washington, which was contested for by over six thousand boys of Oklahoma last year, was won by Mr. Philip Wolf, of Kildare, Okla. Philip raised 85 1-2 bushels on one acre, and after being awarded the prize, went to Washington and was entertained by Senator Gore and the Secretary of Agriculture.

The Senator has again renewed this offer—a free trip to Washington—to the winner in this year's contest. Those desiring to enter the corn growing contest for this year should write to Mr. W. D. Bentley, State Agent of Oklahoma for the Agricultural Department, whose post-office address is Yukon, Okla. Mr. Bentley will give the boys free instructions, and the rules and regulations governing the contest, and then a little later, the boys will receive from the Agricultural Department bulletins instructing them in corn growing. These bulletins are of great value in this work.

Kaffir Corn Growing Contest. He has also made an offer in cash to the boys entering the kaffir corn growing contest. This is a cash prize. He has given fifty dollars to be given in this contest—the contest and the awarding of the prizes to be governed by Mr. J. W. Wilkinson, of the State Agricultural and Mechanical College at Stillwater. Those desiring to enter this contest should write to Mr. Wilkinson relative to it. He will furnish them with all information.

Prizes to Industrial Girls. He has made a third offer of fifty dollars in cash to be awarded by Mr. Wilkinson to a contest to be superintended by him. The rules and regulations governing this contest are to be supplied by Mr. Wilkinson, and also the awarding of the prizes. It is his intention to organize girl industrial clubs, and this money is to be divided, or given to the winners in the contests that Mr. Wilkinson originates.

Boys and girls desiring to enter these contests should keep in mind the proper parties to write as to entering. The first corn growing contest—a free trip to Washington—is being supervised by the Agricultural Department, and our state agent is W. D. Bentley, of Yukon. All communications relative to this contest should be addressed to him.

The two latter contests—that is the kaffir corn growing contest and the girls' industrial clubs—are being superintended by Mr. John W. Wilkinson, of Stillwater, and communications relative to these should be addressed to him.

S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is due to an excess of uric acid, an irritating, inflammatory accumulation, which gets into the circulation because of weak kidneys, constipation, indigestion, and other physical irregularities which are usually considered of no importance. Nothing applied externally can ever reach the seat of this trouble; the most such treatment can do is soothe the pains temporarily; while potash and other mineral medicines really add to the acidity of the blood, and this fluid therefore continually grows more acid and vitiated. Then instead of nourishing the different muscles and joints, keeping them in a normally supple and elastic condition, it gradually hardens and stiffens them by drying up the natural oils and fluids. Rheumatism can never be cured until the blood is purified. S. S. S. thoroughly cleanses and renovates the circulation by neutralizing the acids and driving the cause from the system. It strengthens and invigorates the blood so that instead of a sour, weak stream, depositing acid and painful corrosive matter in the muscles, joints and bones, it nourishes the entire body with pure, rich blood and permanently cures Rheumatism. S. S. S. contains no potash, alkali or other harmful mineral, but is made entirely of roots, herbs and barks of great purifying and tonic properties. Book on Rheumatism and any medical advice free to all who write.

BASEBALL NOTES

Since the season of 1903 no less than forty-nine men have managed clubs in the American and National Leagues. Some of these men have drifted from one club to another in the same circuit, and have occasionally transferred their operations to the other league. The clubs, the managers and the order of their succession follow:

National League—New York, John Graw; Chicago, Frank Selee, Frank Chance; Pittsburgh, Fred Clarke; Philadelphia, Charley Nichols, Jimmy Burke, John McCloskey, Roger Bresnahan; Cincinnati, Joe Kelly, Ned Hanlon, John Gangel, Clark Griffith, Hank O'Day, Brooklyn, Ned Hanlon, Patsy Donovan, Harry Lumley, Bill Dahlen; Boston, Al Buckenberger, Fred Tenney, Joe Kelly, Frank Bowerman, Harry Smith, Fred Lake, Fred Tenney, John Kling.

American League—Philadelphia, Connie Mack; Detroit, Ed Barrows, Bill Armour, George Stallings, Hugh Jennings; Cleveland, Bill Armour, Nap Lajoie, Jim McGuire, George Stovall, George Davis; Boston, Jimmy Collins, Chick Stahl, Bob Unglaub, George Huff, Jim McGuire, Fred Lake Patsy Donovan, Jake Stahl; Chicago, Clark Griffith, Jimmy Calahan, Fielder Jones, Billy Sullivan, Hugh Duffy, Jimmy Calahan; New York, Clark Griffith, Norman Elberfeld, George Stallings, Hal Chase, Harry Wolverton; Washington, Tom Loftus, Jake Stahl, Joe Cantillon, Jim McAleer, Clark Griffith; St. Louis, Jim McAleer, Jack O'Connor, Rhody Wallace.

President Ward of the Boston Nationals will perhaps take his Braves to Bermuda for 1912 training. According to reports from the Washington training camp Pitcher Tom Hughes' injured hand is as good as ever.

Manager Hank O'Day, of the Cincinnati team, has decided to cut out Sunday exhibition games for the Reds while in the East this season. Steinfeldt or Smith will play third base for the St. Louis Cardinals in case Mike Mowery fails to report. Mike is holding out for more coin.

Manager McGraw of the Giants, says that there is no chance for any of his new men, even the pitchers, to make the first-string outfit on the team this year.

The girls of Los Angeles are willing to elect Manager Hen Berry to any office he desires, since Hen announced that ladies will be admitted free to the Los Angeles park, every day except Saturday and Sunday.

Rumor has it that Hank Perry, now with the Detroit Tigers, will be sent back to the Providence Club. Perry headed the International League in batting last year and was considered one of the finds of the season.

A new pitcher, "Lefty" Kellogg, has joined the Pittsburgh Pirates. Kellogg is six feet three inches tall and built in proportion, weighing now 208 pounds. He has been pitching in the Panama Canal Zone for about a year and a half.

During the recent damp spell the youngsters with the Cubs, "with nothing to do till tomorrow," rolled so many cigarettes, according to Manager Chance, that he was compelled to "call" them. The Peerless Leader allows the veterans to do as they please, but the infants have to behave.

Buffalo has made the White Sox an offer for "Lena" Blackburne, but if he goes out of the big league the chances are that he will land with Hugh Duffy's Milwaukee team. Blackburne cost the White Sox \$11,000 two years ago, but has never been able to catch the step with the Comiskey crew.

When the show unloaded this forenoon it attracted a good sized crowd which increased and followed the wag

BETTER THAN SPANKING

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. ons and animals to the grounds near the ferry dock. One of the features of the entertainment and one which the crowd did not have to pay for, was the cooks and helpers preparing breakfast.

When it is considered that a small village of people has to be fed each meal, the fact that the whole thing was accomplished in less than a half hour this morning shows considerable system. Nearly six hundred loaves of bread are required each day, besides 250 pounds of meat each meal and three crates of eggs.

In the way of food for both men and stock, the Campbell circus will leave quite a sum of money in the Soo.

The parade this afternoon was commented upon as above the ordinary in general appearance. This afternoon many are seeing the show which attracted a large number of out-of-town visitors. The Campbell organization has but two colored men among all its workmen, a fact that is a departure from the custom of present day circuses. The two men of color have been with the Campbell outfit for a number of years.

In other cities where the circus has exhibited Campbell Brothers have been highly spoken of for a clean lot of showmen with a most orderly attraction. The organization has its own rules of discipline and will not tolerate short changing, or petty graft. If any of this is found to exist among its employees, charges are filed forthwith by the management in an effort to prosecute.

With the fine day and all of it to himself, the Soo small boy thoroughly enjoyed himself at the grounds, playing with the ponies and taking in big lungfuls of sawdust. Many of the old boys also found excuse to be about the grounds a good share of the day, a fact that proves the circus will never grow old.—Sault Ste Marie (Mich) News.

SUPT. WILSON FAVORS OBSERVING "FATHER'S DAY"

Oklahoma City, April 3.—In order that no parental partiality be shown in honoring those responsible for the nation's progress and the state's welfare, Supt. R. H. Wilson is in favor of establishing a "Father's Day" Regarding this matter he says:

"I have received a letter from Miss Anna Jarvis, founder of Mothers' Day calling my attention to the fact that May 10th has been designated as Mother's Day in the public schools. This is Friday preceding Mothers' Day, Sunday, May 12th.

"I remember that last year my attention was called to this important day and we did then, as we are doing now, prepare a program for Mother's Day. I believe that this custom of observing one day in the year in remembrance of our mothers is a good one. It makes every boy and girl, every man and woman better to have had their attention called to the good deeds of dear old mother.

"Our American people are here worshippers and our nation has established a number of holidays in commemoration of our great men. I have often wondered how long it would be before a day is set apart for the greatest man in America, the one who has done the most for his country; the one who has answered her every call; the one who has borne always without shirking his part of every responsibility—father.

"I believe in Mothers' Day; I believe in Children's Day; but why not remember father? He pays the bills and the taxes; works the public road and tills the fields; he rejoices most when those he loves are happy—but it seems somehow he has been forgotten. When Santa Claus comes, if any one is neglected, it is he and I am wondering how many boys and girls, young men and young women teachers and mothers would join me in establishing a day in remembrance of dear old Dad?

"I believe we should establish a Fathers' Day. It occurs to me that it should be some time in the autumn, and I would suggest that this Fathers' Day be made on Sunday, as this is the only day that Dad has to spare."

A Cure for the Substitution Evil.

A salesman of the National Biscuit company was lately talking to a grocer in a Southern city who had laid in a stock of soda crackers put up in a 5 cent package and made by a competitor of the National Biscuit company. The grocer said that the reason he carried the competitive article was because prices on the imitation goods were so much lower that it afforded him an extra profit, and that he thought he could work them off on his customers in place of Uneda Biscuit.

While they were talking a colored woman came into the store and asked for a package of Uneda Biscuit. To show the National Biscuit company's salesman how easy it was to substitute, the proprietor himself waited on the woman, showing her the imitation

package and advising her to take it, saying that it was "just as good" as Uneda Biscuit. The colored woman hesitated, and then said: "No, sah, dey is wanted for sickness, an' my missus sen' me for Uneda Biscuit; she is mighty particular, an' she know what she want, so gib me Uneda Biscuit, boss."

This is only one of many similar instances that are constantly occurring in the effort to substitute other goods when Uneda Biscuit are asked for.

After all, isn't the best cure for substitution the making of first-class goods, and then the advertising of them to consumers so thoroughly and persistently that, like the colored woman, they are afraid to take any risk in buying something else?—From Printers' Ink, March 21st.
